-------------	-----------	---------------	---------	------------	------------	-------------

Saffy is a fair skinned character for the Genesis 8 Female figure from Daz3d. Her head & her body are separate custom morphs so you do not need anything other than the base figure in order to use her. She comes with a no brow option for all of her makeup textures so that she can be used with the included fibermesh brow for added versatility; in addition to the default blond painted brow.

This product includes;

Full character morph, separate head and body morphs and remove files for Genesis 8 Female.

Base Textures

10 Makeup options

10 Makeup options without eyebrows

8 Lip options

4 Eye Colours

Fibermesh eyebrow prop with brown, auburn, and blond textures

Texture for the separate genital prop

Iray materials only.

Additional Information:

Saffy was made in Daz Studio 4.9.4 for use with Iray. You will need to have Daz Studio 4.9.4 or higher installed for G8F, and also to fully utilize the material options which use the updated Iray Ubershader. There is also an additional base material for if you want to use Saffy's textures on G3F.

No postwork on promo renders other than compositing Iray logo.
