Attack, defend, protect, assassinate all this is up to you!
Abrion Combat Suit and Character Morph for Genesis comes with a complete Outfit and Character Morph.
This Set includes a beautiful Character Morph.
You can separatly click or dial in the head and body.
It also includes several Utilities: show or hide the sword in the sheath.
The Sword Sheath has 5 joints all of them are posable.
You can insert the Sword as Prop for the right or/and left hand.
You activate set render settings for the blooming option (as you can see in the render images) by one click.

This is a huge package and I had a lot a fun to create it and render the images.
