-------------	-----------	---------------	---------	------------	------------	-------------

Davinia by 3-D Arena is a lovely new custom character for Genesis 8 Female. She is perfect for renders from Fantasy to Renaissance to your every day scenes. Davinia has 2 body shapes, the "Corset Body" option is an extreme choice designed for corset style outfits.

Davinia includes her own FiberMesh brows as well as overlay brows in a variety of colours.

As with all current 3-D Arena characters you can select the eyeliner of your choice to be applied over her makeup, you can apply blush separately in different strengths/colours.

Davinia also includes Pubic Hair LIE options in various shades and a variety of facial decorations.

As Queen of Hearts, Davinia includes geoshell lingerie that you can colour as you choose.

Recently I have sent some an alternate torso option for previous characters that have no nipples - for those slightly risqué tops. I used to include these in older character packages and the option is back. This will make it easier to render modest images when a dforce top slips a bit more than you expected. ;-)

No morph packages are required!

☆ Included ☆
