••••• SASE Jill for Genesis 8 Female •••••

Jill is a sweet thin doll for all of your rendering needs.

Her delicate & feminine morph was created in zbrush.

As always Jill's skin was created using a combination of photos, hand painting, and resources. Her freckles are handpainted and in LIE format making them useable on most fair skinned characters. She also has two different styles of freckles.

Jill's blush & eyeliners are also LIE making them useable on most characters.
