Product Information

- Required Products: *None*

Creating effective and compelling character art lies at the heart of most Daz Studio art projects. How do you create characters that prompts you to know more about them, to ask questions about their story and character traits? What decisions do you make along the way to produce characters that you can believe in?

Sonja McClung (IceDragonArt) has created many fantasy characters using Daz Studio and provides a wealth of high value tips to guide you on your character creation journey.

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a [Package Qualifier \(WIP\)](#), which is used as a key to indicate something about the contents of that package.

- 2 Core

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.
