Product Information

- Required Products: *None*

IDG Vibrant Light Probes combines beautifully balanced 3 point portrait lights and a colorful backdrop in one easy step.

Fast rendering and simple to use, character portraits or product shots have never been easier. Each of the 12 HDR images has been hand crafted from 21 levels of exposure to give you great light, good shadows and an excellent background all in one package. Apply one of these render presets, pose your figure and hit render. Rotate the dome for even more possibilities in lighting and background images. All images are seamless to give you perfect backgrounds at any rotation. IDG Light Probes can also be used without the backgrounds (render dome off), or they can be combined with your favorite light set.
