Orson Hair is a morphing, polygonal model of long men's hair with a center part and top half pulled back. The hair sections and bandana have an articulate rig consisting of 20 custom bones for posing.

Along with the style and movement morphs, ERC pose control dials help fit your figure poses beyond the 12 sample hair poses provided. The hair is fitted for Genesis 3 & 8 Male(s) with auto-conforming custom morphs for Daz Original characters.

Iray and 3Delight material presets for various texture map colors are included plus diffuse color setting samples. The diffuse color samples show how you can easily create your own tints by changing the diffuse color of the hair.

Male character, clothing, and environment not included. Please see notes below for “Additional Products used in Promo Images.”
