Details

Melinda is a high quality Character for Genesis 8 Female.

The head and body for Melinda are uniquely custom sculpted in Zbrush, and the skin was created using high quality photo references for depth and detail.

Melinda also comes with a few extra options; she has longer custom mails as well as fibermesh eyebrows in 6 colours. She also has three tattoos (created from actual photographs), that can be applied separately.

I have also included a special raised cornea morph that allows the light to reflect her eyes more accurately in renders, giving you more alluring and sexy renders.
