Product Information

- Required Products: *None*

There are sixteen items in the Rock - Tribal collection, four bracelets, three necklaces, three pendants and six rings, all sculpted in ZBrush and textured in Substance Painter.

All bracelets, one pendant and all rings are static props. The necklaces and the other two pendants are fully rigged. There are wearable presets for all items so they can be loaded up to any Genesis 3 or Genesis 8 female figure. The bracelets and the rings may need adjustments when you use them with a character morph. The necklaces support a variety of Genesis 3 and Genesis 8 DAZ female morphs. You may need to adjust them if you dial in a character morph.

There are many morphs that support adjustments and styling for the necklaces.

You may unparent the pendants from the necklaces and parent your own pendant prop to that "link". In that way you can use the necklaces as bases for your other pendants.

You can also select the color of crystal for Ring 02 by changing the 'Transmitted Color' color property of the 'Crystal' surface.
