Product Information

- Required Products: *None*

This set includes 6 render presets for Iray. All presets use 12K pixels images in HDR format which provide background showing nice sunsets through hazy atmosphere in a desert with mountains on the

horizon.

Some of them have a sky partially covered with clouds colored by the sunlight. Others offer sunset skies which cast a dominant pink or blue color mood. And the latter is designed for renderings requiring a large yellow sun disk over desert mountains as a background scene. All these images give a full 360 degree coverage and add a very realistic image-based lighting (IBL) to your scene.

Also included: 12 dome rotation presets to quickly change the section from the 360 degree HDR image that can be visible through your camera and 5 camera presets that allow you to change the camera focal length setting in one click.

Please note that all promotional images have been rendered In Daz Studio using Iray and the included HDR images as the sole source of lighting.
