Product ID:	58037
Published Artist(s):	deviney
Created By:	N/A
Release Date:	2019-01-10

Product Information

- Required Products: Postwork : Essential Techniques in Photoshop

In this amazing set of Cables Hoses I developed these for all you enthusiastic cyborg people with a passion for sci-fi in your Models and concept designs.

The product is in Photoshop .PSD format all are 4k @ 300dpi layered files,12 Total files with over 300 Cables inside.There are Twisted,hanging, free flowing designs single,dual and combined hoses with connectors and attachments with a few that are grudged up with tape and grunge overlays and decals. I created all the Hose and Cables in Illustrator and brought them in Photoshop added the attachments using a 3d program and pieced them together and many thanks to DZ Fires (Nurnies Greebles Parts and pieces) that really helped in achieving this project.

Hope you can get some good use out of these look forward to your creations, Happy New Year and Thank You to everyone that supports

me and my family, Ron.

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a Package Qualifier (WIP), which is used as a key to indicate something about the contents of that package.

- 1 Core

[ ] = Optional, depending on target application(s)

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.
