

Hard Surface Shaders for Iray

Product Name:	Hard Surface Shaders for Iray
Product ID:	58719
Published Artist(s):	Digital Delirium , ImagineX
Created By:	N/A
Release Date:	2019-02-16

Product Information

- Required Products: *None*

Hard Surface Shaders for Iray is a collection of beautiful seamlessly tiled shaders, meticulously created from a combination of generated textures and photographs, shot and hand stitched in

Photoshop by a professional photographer.

Included are 8 varieties of marble, 8 styles of granite, 4 types of concrete and 4 different asphalts. All with their own unique displacement maps and easy to use preset options. Each of these surfaces have their own tiling presets and offer 4 versatile finishes - gloss, shiny, satin and rough.

Ten different grout patterns in 16 different colours, as well as a wide range of tiling options offer even more capacity to make truly original works. The grout tiling options work independently to the surface tiling presets, allowing you to use multiple presets in combination, giving you amazing versatility and choices.

But we didn't just stop there - 8 unique, absolutely stunning, seamless Opulent shader varieties, 4 Deco and 4 Modern, all with tiling options have been included for those who like something truly decadent to work with.

Hard Surface Shaders for Iray can also be used as a Merchant Resource and comes with a comprehensive PDF User Guide should you need it.

The multitude of options you will have at your fingertips will give you the capacity to create amazing renders, from a sleek, polished, contemporary apartment to a breathtakingly stunning fantasy scene. Hard Surface Shaders for Iray is the perfect match for your next render.

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a [Package Qualifier \(WIP\)](#), which is used as a key to indicate something about the contents of that package.

- 1 Core ¹⁾

[] = *Optional, depending on target application(s)*

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.
