Product Information

- Required Products: *None*

Watch the Fantasy creatures finally come to life.

Aliens, elves, goblins, fairies, etc, they are all waiting for you to give them the colored sparkle that they have been missing so much.

With the Fantasy Skins For Genesis 8, you will be able to apply a huge variety of fantastic colored shaders, from hardly noticeable ones to very saturated ones, to ANY of your existing Genesis 8 characters.

Yes, Male AND Female!

Optimized for Genesis 8, all the shaders are also fully compatible with all Genesis 3 characters, and will produce great results for them too.

Need a red Devil? a black Demon? a green Super Hero? Or just the need to add a subtle touch of green, purple or pink to a cute creature?

The Fantasy Skins for Genesis 8 set will provide you all you need to make the best fantasy creatures using any of your existing Genesis 8 Figures and their original texture sets.

You love Victoria 8 and her textures set? You can use them and turn Victoria 8 into an elegant green alien, keeping all her features.

Will this green Alien have to have red blood that we'll see through transparency?

Well, it's up to you! You can turn her blood into any color you want with the Translucency options files provided!

Play with this Fantasy Skin Builder! You can build both simple and complex fantasy skins, using either only the base presets acting on skin tone, or combining these base presets with the other advanced SSS, Top Coat and Flakes effects. Additional scripts are even provided to easily fine tune the amount of gloss and of additional effects below and over the skin.

This way, if you want, you can customize your fantasy characters in very unique and characteristic ways using the additional Top Coat options, Translucency options, Eyes options, Nails options, SSS and no SSS options provided. Additional tools are finally included to support Diffuse Overlay make-ups, and to allow you to transfer skin settings to any geograft element including Anatomical Elements.

This product will work on Daz Original figures, on Published Artists figures or even your own creations, based on Genesis 3 or Genesis 8.

Let's bring all those creatures to life!

Resolved Issues

- 2019-03-11 -
 - ONE File has been added to remove the anisotropy from the top coat if necessary, in the "FS 04 Top Coat Effects" folder. This file is "FSG8 12 TC Effect Zero Anisotropy"

- FOUR Files have been added to change the Metallic Flakes size (corresponding to 4 different sizes) so that they now match all along the body if users do not want to keep the initial sizes proposed for the various body areas. They are all located in the “FS 05 Flakes Effects” folder. Those files are FSG8 13 Flakes Effect Size A, FSG8 13 Flakes Effect Size B, FSG8 13 Flakes Effect Size C and FSG8 13 Flakes Effect Size D.
- FOUR Files have been added to change the Metallic Flakes density. They are all located in the “FS 05 Flakes Effects” folder. Those Files are : FSG8 13 Flakes Effect zDensity 01 Low, FSG8 13 Flakes Effect zDensity 02 Medium Low, FSG8 13 Flakes Effect zDensity 03 Medium High, FSG8 13 Flakes Effect zDensity 04 High. The name “zDensity” was chosen so that they are sorted at the right place in the content.
- PDF Documentation was updated to take the update into account, as well as to include the terms of a commercial usage of those fantasy skins.
