| <b>Release Date:</b>        | 2019-03-12                         |

## Product Information

- Required Products: *None*

The Hell Creek Modules feature 6 large and unique terrain modules that can be pieced together in many different ways. Create your ideal scene of the forested floodplains of “Hell Creek” 66 million

years ago. Such dinosaurs as Tyrannosaurus Rex, Dakotarpator, and Triceratops lived in Hell Creek. The modules are designed to house even the largest of dinosaurs so there's plenty of space to comfortably create your ideal scene.

Duplicate and rotate modules to create a fresh looking scene every time. Each module is made up of multiple layers such as the terrain, ground cover, small trees, and bigger tree types. Any layer can be removed or turned off if not needed.

Dinosaurs not included.

## Product Notes

### Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a [Package Qualifier \(WIP\)](#), which is used as a key to indicate something about the contents of that package.

- 1 Core

[ ] = *Optional, depending on target application(s)*

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.

### Additional Details

Below is a list of files provided by the [Hell Creek Modules](#) product.
