

Eden for Genesis 8 Female

Product Name:	Eden for Genesis 8 Female
Product ID:	59509
Published Artist(s):	Handspan Studios
Created By:	N/A
Release Date:	2019-03-24

Product Information

- Required Products: [Genesis 8 Female Body Morphs](#), [Genesis 8 Female Head Morphs](#)

Eden is a new character from Handspan Studios for Genesis 8 Female. Inspired by distinctive African beauty, she is youthful, exotic and strong with an inner peace that shines through. She has four skin

shade or translucency options which range from Creole light coffee to the deepest Ebony. She has a special dot painted face texture in addition to her many makeup options. She comes with No Brow map versions for use with any fiber mesh brow and custom painted brow textures (shown in the promo images) and five nail polish colors. Most of her textures are 4096×4096 in uncompressed .tiff format, she has textures for anatomical elements, lots of makeup map and mat options and a lash transparency that will render well, even in closeups. Her captivating eyes have 9 color options as well. Includes easy to apply Shaping and MAT poses for all her maps and other options.

Genesis 8 Female base and Daz Genesis 8 Female Head and Body Morphs are required for the character shape. *If you do not have the morphs, she is shown in the last promo image without the Daz Head and Body morphs. If you use her shaping presets without them installed, this is how she will look. The maps and MAT poses can be used with any Genesis 8 or Genesis 3 Female based character.

Eden has separate morphs for her head and body shapes so you can use just the face or just the body easily with your other favorite shapes. There are Shaping dials for each as well, both for each of the morphs and a CTRL dial that will apply head and body morphs together for you. She comes with a custom smile expression that has a shaping dial, also a Flirt and a Playful expression pose in .duf format.

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a [Package Qualifier \(WIP\)](#), which is used as a key to indicate something about the contents of that package.

- 1 Core ¹⁾

[] = *Optional, depending on target application(s)*

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.

- "Shaping:Remove:Partial Body"

Additional Details

- When applying lip, nail and makeup colors due to the use of shader parameters rather than maps they may not appear to have changed in preview mode or until fully rendered.
- Brows: "All Maps" Materials will apply the painted brows, if you want to use mesh brows choose the "No Brows" Options after this, there is one for makeup and one without. All 6 makeup and the lip color poses can then be used on either Brow/No Brow versions.
- Makeup: Apply the Makeup Base Preset first, (either the brow or no brow version) and then apply further options (MU 01-07, Glitter Dust, Eyeliner and Lips 01-06). If you want to change the overall translucency, select this option last, otherwise the face or lips will revert to the default translucency level. If that happens just click the translucency preset again. The Glitter dust option applies an over the whole face dusting of a light metallic cosmetic, for highlighting the face contours in certain lights. You can adjust it in the Face glossy channel, either with the color or strength. Since Eyeliners and the Makeups each use the face diffuse overlay you can't use both at once, the Makeup 01-06 have an eyeliner applied already. You would use Eyeliner Brown and Black to have eyeliner without any of the eye shadows. Lips 01-06 use only the lips material so they are compatible with any of the eye makeup options. Each Makeup 01-06 has a lip in addition to the ones with their own presets.
- Render Settings: Optimized for good detail, fairly fast. This will not overwrite anything in the environment part of the render settings (no effect on lighting).
- Promos were made using these settings and Dimension Theories Irradiance Studio HDRI Vol. 1 (mostly) and 2 and Irradiance Light Probe lights. I also used Tone Mapping> Vignetting at about 30 on the main image.
