Additional Details

- With the glitter accents for the fibermesh eyelashes, select Sezaen Fibermesh Eyelashes in your scene, then apply the material file. The other material files (colors) are hierarchical materials, but unfortunately the glitter accents could not be.
- There are options to hide and unhide the transmapped eyelashes; these are also hierarchical material presets and should be used while the fibermesh eyelashes are loaded on to Sezaen/Genesis 8 Female.
- As always, thank you!
