Product Information

- Required Products: *None*

Stardust Fantasy is a glittery themed Fantasy Makeup Resource, but it can also be used for fun in your every day renders!

Stardust Fantasy consists of five geometry shells. Each shell is laid out one on top of the other so you can get even more looks! Use one shell, all five, or combine with other shells in the Stardust Makeup series!

You can create HUNDREDS of different options!

Tips and Tricks for Stardust Makeup Packs:

- Whether you have one Stardust pack or are combining them with others, using them is quite easy, once you get the hang of it.
- Salon and Fantasy packs have 5 shells, and Eyeshadow has 6 Shells. Think of these shells as your 'layers'. You will find them in your scene tab.
- Make sure you click on Genesis 8 Female before loading your shells.
- When working with the shells, if you were to click on the shell labeled “Outer Eye” you will then be able to customize just that part of the product and what it shows, namely, the outer eye. By clicking on Outer Shell, you are then able to go within the Stardust folders to where your transparencies are supplied. Simply click on the transparency you want, and navigate to the colors folder to change the color of it. Clicking on “Inner Eye” will then of course make changes to just your inner eye.

The only hierarchical materials in this package are the Premade Sets, the rest of the mats are standard so any adjustments you want to make have to be made to their prospective shell(s), otherwise you might affect your Genesis 8 Female base.

The flat nail polish colors however, could easily be applied to Genesis 8 Female instead of using a shell, as the shell is more for the nail designs. The Stardust packs allow a total of 16 shells to be loaded at one time, though you probably won't end up needing them all. Each Geometry Shell lays one on top of the other, with shells like eyeshadow base being underneath the inner eye, to make sure that the inner eye lays on top, just like if you were applying eyeshadow in real life.

Not interested in making anything fancy? There are 30 premade H.Mat Presets for you to choose from!
