Product Information

- Required Products: [Code Squad 01 for Genesis 8 Female\(s\)](#)

Xps for Code Squad 01 is an add-on package that expands on the sci-fi and futuristic side of the main product with two different textures styles (Sci-Styleish and Spaceset) that comes in 4 variations each,

three sets of stockings in various lengths and with additional morphs and Dirt LIE options for all the basic and new pieces (Top, skirt, panties, stockings and shoes) and complete MATs (for the Styles and for the Styles + LIE) for easy fruition of all the options.

The included texture styles both explore different nuances and sub-genre of what the comprising term Sci-fi includes.

The Sci-Styleish style is a “classic”, space-station or futuristic lab sci-fi style, it also has a retro feeling with its 70s variants:

SCI-STYLISH: high-contrast red and white palette that fits all classic futuristic settings

BEE: futuristic sci-fi black and yellow (and gray) “bee” palette, another versatile classic

ELEGANT 70s: a leather version embodying a vintage sci-fi taste

METALLIC 70s: a white and metal version hinting at the sci-fi highly-metallic vision of the 70s

The Spaceset style is inspired by mechs, it has an armor-like breastplate and features high-tech and carbon fibre fabrics:

SPACESET: a classic dark and white palette with a striking yellow painted metal chest

SPACESET 2: the “inverted” main version, colors and materials exchange places and the yellow paint becomes green

BLACK and GOLD: a more elegant and higher rank version where black and gold create that feeling of superiority

CRYSTAL: a light blues and greys palette for a more delicate, futuristic-new-age take on the style

Stockings:

This add-on includes 3 pairs of stockings: a regular pair, a falling down pair and a fallen down pair. These three pairs are all separate items so that they will pose perfectly with Genesis 8 (having the falling down options as morphs would have created bad deformation when Genesis 8 moves), they also include some morphs for different falling/fallen down looks.

Note that they are 6 different items, so you can nicely mix and match them all for the look you are after! In addition to the Sci-Styleish and Spaceset styles we included a Lace and a Simple styles that allow them to match with anything you want. The Lace style has a futuristic pattern on it and comes in 3 different lengths for the top part and 3 materials (classic, silk and metallic) in several colors (note that by using the white version and changing the Base_Color, you can easily customize the color to match your outfits). The Simple comes in white and 50 Base_Color-only MATs to easily re-color it to match any other outfit. It also comes in a Dystopian color + logo version that you can use to match the Dystopian add-on in case you have it.

The Stockings also includes a “Fit Shinwear” morph, again this is something you'd use if you also have the Dystopian add-on as it is supposed to be used with the Dystopian shinwears.

LIE Dirt:

The dirt option comes in the format of LIE maps and MATs files. They are all .jpg files for easier fruition and quicker loading (however it always takes a little time for LIE options to load).

The Dirt comes in “regular” and lighter version. Note that the dirt strength is controlled by the included opacity maps, so if you want to customize it, you can actually play with the opacity maps contrast or levels and obtain something that better fits your needs. You can also edit the Base_Color maps for the dirt if for any reason you want it another color or nuance.

Since LIE is a bit slow to load, we included complete maps for all the styles (including Code Squad 01 main styles) that load the whole style with the dirt LIE already applied so that is just a matter of a click for you!

This set expands the concept of “Aeon Soul's wardrobe power” even further giving you more options for Code Squad 01, more items (the stockings) and more customization (LIE dirt) so that is even

easier to create your own unique characters by mixing and matching or kit-bashing outfits.

Please note that these textures and LIE options are not compatible with the Dystopian add-on, however you can use the stockings with that add-on as we included a style and morphs to make them work with the shinwears.

Additional Details

- Both the “full length” and “falling down” versions of the stockings (left and right) include fitting morphs that allow them to be used together with the dystopian shinwear (the “fallen down” version is too short to make sense).
- So if you also have the Dystopian add-on for Code Squad note you can take advantage of this.

Additionally we also created a simple style with the Dystopian symbol on it.
