Product Information

- Required Products: *None*

Code Squad 01 is a stylish contemporary or futuristic sci-fi set for Genesis 8 Female that includes a long sleeved top with a reinforced breast plate and a padded neck, a very dynamic short skirt (or

miniskirt), a pair of panties with corresponding “hip-hugging” HD morph for G8 and a pair of sporty short boots.

It's a highly detailed and cool looking set with a range of different materials and palettes that can be used for everyday renders, but with reinforced and padded details it works especially well for more action oriented set-ups.

The range of textures tries to cover several scenarios, with an urban camouflage option for an action-oriented character; a style with gold patterns and accents for a cyberpunk feeling and two “explorer” styles for more adventurous types (still a lot of un-raided tombs out there).

Top:

The Top can easily be customized with hide options: sleeves, neck, belt, fabric parts and breastplate can be hidden to create a different look. It also allows to mix and match it with other garments. The various hides can be combined.

Check the images showing the MAT zones and the one showing the included Hide options for a visual representation of the above.

Skirt:

The skirt has been carefully rigged and works great in most scenarios, however the hip/legs joints area can be very problematic depending on the pose used and sometimes you may need to get some help from the helpers morphs included, you can also see if disabling the legs JCMs is going to help (check the promo for a visual tip). If/when you disable the JCM and the follow legs features, you can use the lthighbend and rthighbend bones to move the skirt and adjust the float morphs if they poke-through somewhere.

Also check the morphs included as they too can help with poke-through or any other pose-related problem. If you are stuck with a bad case of skirt deformation, slightly changing some of the legs (thighs) values may change the result drastically on the skirt, keep that in mind.

Included are 38 “generic” movement morphs (floating), several helper morphs and some utilities. For the use of the Disable JCM and Follow Legs buttons please check the promo TIP image.

Along with these generic morphs we also included 267 Matching poses morphs. Those were created to perfectly match the 3 Code Squad related poses packages, but can be used independently from the poses. Just note that if you have any of the poses packages, the skirt may include some matching movement morphs.

Also note that when using the Matching poses morphs with the corresponding pose, you need to disable the “Automatic JCM” and “Follow Legs” features (under utility), check the promo images for a visual TIP about this.

Panty:

We included a “squeeze” morph for G8, so if the panties are showing, remember to enable it, it can be found under Actor/Aeon Soul/Code Squad 01

Aeon Soul wardrobe power: mix and match clothing pieces and styles with all you have to create unique characters. Aeon Soul clothes fit each other awesomely, since they all sport the same level of quality, detail and features. The different styles included give you a great range to kit-bash and mix outfits!
